Content Guide

Each music folder is named after what we imagined would be the best fitted puzzle game theme, and although that's a good starting point, the songs can be used for pretty much any genre.

Once you open the folder you will find different versions of the enclosed song:

Theme_Full: The whole soundtrack, from start to finish.
Theme_Short: Less than a minute version of the song, great for promotion.
Theme_Long: Shorter than the Full Theme, but longer than a minute.
Theme_Loop: A loopable version of the whole theme.

Loops: We have taken the time to collect unique parts of the song that we felt made it special. Hence giving you the possibility to use each individual section of the soundtrack as you please, so you can truly create something yours.
